

*...Evaluation of Software is a very difficult process...For the first time, Dr. Kanhere brings out the methods used for evaluation in Indian Industries. I am sure that the book will be of immense use for Accounting, Finance and Management personnel in addition to software professionals...*

Dr. R.K. Shyamasundar, Fellow IEEE, Senior Professor and Dean, School of Technology & Computer Science, Tata Institute of Fundamental Research, Mumbai

*...Writing an original book on "Software Valuation is an all consuming and a challenging affair ...I am sure that the book will be of great value since it documents well for the first time the art and science of software valuation. It should be of great value to the entire software industry, businesses in the financial sector and all those, who are large users or producers of software...*

Dr. Akshai Aggarwal, High Performance and Grid Computing (HPGC) Research Lab, University of Windsor

*... Valuation of Software is an interesting and innovative topic... The book should serve as a useful reference for software developers, users, corporates and readers in understanding the subject, and applying it for further refinement of managing software through its entire lifecycle, from planning, design, development, maintenance, and operational use...*

Bhushan Dewan , Vice President-Business Excellence, Tata Consultancy Services Limited

**About the Author**

Dr Vishnu Kanhere is a practicing chartered accountant, qualified cost accountant and management consultant. His special interests include valuation, taxation & information security. He earned his doctorate from Jamnalal Bajaj Institute of Management Studies, University of Mumbai in 1998-99, where he has been a visiting faculty.

His brilliant academic achievements and "hands on" working experience reflect the wide canvas on which he operates. Besides being a Certified Information System Auditor and a Certified Information Security Manager from Information System Audit and Control Association, (USA), Dr. Kanhere is also a Certified Fraud Examiner of the Association of Certified Fraud Examiners, USA and a Quality

Management System Lead Auditor accredited by the International Register of Certificated Auditors (UK). He is also actively associated with Bureau of Indian Standards, eISA, IT Cell of IMC and CSI.

He is a renowned speaker at national and international forums and a prolific writer having contributed several articles on corporate finance, economics, IT revolution, taxation and cyber-laws.
